

Thank you for registering your interest in Stobart Group's Carlisle Lake District Airport (CLDA). We look forward to the launch of commercial flights this summer and work is well underway at the site where we are renovating the runway and building a new passenger terminal.

In the meantime (and just in case you are new to this lovely part of the world!) here are some facts about where we are. CLDA is situated in Cumbria, the Lake District, famous for its lakes, forests and fells. Cumbria is the third largest county in England and is mainly rural containing the Lake District National Park which, established in 1951, was designated a World Heritage Site in 2017. The airport also sits alongside the Hadrian's Wall World Heritage Site meaning that we are

one of the only airports in the World to be on the doorstep of two WHS sites! Cumbria and the Lake District are also considered to be some of England's most outstanding areas of natural beauty, serving as an inspiration for artists of all walks including William Wordsworth, Beatrix Potter and John Ruskin. But it's not all about culture, Cumbria is one of the UK's best places for high adrenaline sports and outdoor adventure. Put simply, we have something for everyone here!

This summer we will be making history ourselves as for the first time since 1993 commercial flights will be taking off from the new runway and we look forward to sharing details of our carrier partner, routes and how to buy tickets in the very near future.

See you soon at the airport!

Up, up, and away Cumbria – and welcome to all our new visitors!

Make sure to follow us on Twitter and on Facebook.
